

IMRAN KHILJI

Category Growth Leader • Agri-Input P&L & Strategy • Brand, Product & Channel Excellence

Jaipur, Rajasthan | +91 85050 25985 | imrankhilji.iabm@gmail.com | linkedin.com/in/sufimrankhilji

PROFESSIONAL SUMMARY

High-impact agribusiness professional with 4+ years of progressive experience in **category P&L management, product portfolio strategy, pricing architecture, and integrated brand & channel marketing** across India's competitive agri-input sector. Proven ability to transform pesticide and fertilizer portfolios from brand-centric to **category-driven growth engines** — delivering **80% YoY revenue growth** at Unnati Agritech and **57% territory business expansion** at Bayer Crop Science. Deep expertise in launching high-impact NPLs, designing dealer/distributor schemes (ABS, CD, Tour), and building precision demand planning frameworks to minimise inventory ageing. Combines strong agronomic field orientation with sharp commercial thinking across product communication, sales enablement, and regulatory compliance. An ownership-driven professional with farmer-connect depth and cross-functional leadership strengths — positioned for Senior Executive, AM, DM, or Category/Product Manager roles across India's leading agri-input organisations.

Demand Planning & Inventory Optimisation	Market Intelligence & Benchmarking	CIBRC & FCO Regulatory Compliance
Integrated Marketing Campaigns	Vendor & Creative Agency Management	Farmer Engagement & Training
Cross-functional Team Leadership	Digital Marketing & SEO	Sales Enablement & Capability Building

PROFESSIONAL EXPERIENCE

Nuzen Agrigenetics Pvt. Ltd. (NuKrishi) | Jaipur, Rajasthan Dec 2024 – Present | 1 yr 5 months

Category Manager – Pesticides & Fertilizers (Promoted) Sep 2025 – Present

- Assumed full P&L ownership of the Pesticides & Fertilizers category — driving pricing strategy, margin engineering, volume planning, and profitability targets across the NuKrishi portfolio from day one of promotion.
- Architected and executed high-impact channel schemes (Early Bird, Advance Booking, CD, Tour & Special Discount Schemes) that significantly accelerated seasonal bookings, improved distributor cash-flow cycles, and elevated channel loyalty.
- Led new product identification, formulation finalization, gap analysis, and go-to-market launch strategy in close coordination with R&D, sourcing, and regulatory teams — ensuring full CIBRC and FCO compliance throughout the product lifecycle.
- Built a data-driven liquidation framework to reduce slow-moving and ageing inventory across regions, optimising stock rotation and relieving supply-chain pressure during peak seasons.
- Implemented systematic demand forecasting and region-wise inventory allocation cycles, improving availability of fast-moving SKUs and reducing stock-out incidents across key markets.
- Manage a sub-coordinator and cross-functional internal teams — structuring workflows, improving reporting accuracy, and accelerating execution speed across category operations.

Branding & Communication Manager Dec 2024 – Aug 2025

- Spearheaded integrated marketing campaigns (digital, print, on-ground activations) for agri-input products under the NuKrishi umbrella brand, driving measurable uplift in brand awareness, dealer engagement, and in-season sales.
- Oversaw end-to-end product packaging, label design, and promotional material development — ensuring regulatory compliance, visual consistency, and strong shelf impact across the pesticide and fertilizer range.
- Managed the company's digital presence including website development, social media strategy, and SEO initiatives, alongside oversight of creative agency partnerships to deliver high-impact campaigns within budget.

- Developed compelling product narratives and value propositions in collaboration with product development teams, enabling stronger farmer and distributor conversations at the point of sale.
- Designed and delivered product training modules for field teams and channel partners — improving brand guideline adherence, product knowledge, and conversion effectiveness across the network.

Unnati Agritech (ASPL) | Noida, Uttar Pradesh

Jul 2023 – Nov 2024 | 1 yr 5 months

Category Executive – Pesticides & Fertilizers *Direct Report: Vice President*

- Delivered 80% year-over-year revenue growth through strategic pricing execution, market expansion into high-potential regions, and disciplined GTM planning — one of the strongest category growth outcomes in the business cycle.
- Successfully launched 7 new products (TruCide, TrueBio & OxySol brands) achieving strong market penetration in Shahjahanpur and Wardha regions through structured pre-launch, demonstration, and post-launch activation plans.
- Drove 70–80% improvement against quarterly and annual sales targets through focused regional planning, channel activation, and cross-team alignment with Direct Sales and Farm Solutions.
- Managed full product lifecycle — from launch strategy and channel seeding through to liquidation planning — across the pesticide and crop nutrition portfolio, ensuring healthy portfolio rotation and margin protection.
- Formulated and executed top-line and bottom-line strategies including budget planning, cost optimisation, and revenue growth initiatives, with direct ownership of category P&L levers.
- Negotiated favourable terms with strategic vendors to ensure high-quality, timely delivery of POP materials nationwide — supporting campaign execution and field team readiness during key agri seasons.
- Conducted market analysis and competitive intelligence studies, translating field insights and competitor benchmarking into actionable category strategy adjustments.
- Designed and delivered product training programs for internal teams and farmers, measurably improving in-field conversion rates, product adoption, and customer confidence.

Bayer Crop Science | Bikaner, Rajasthan

Apr 2022 – Jun 2023 | 1 yr 3 months

Commercial Trainee / Territory Executive

- Achieved 57% business growth year-over-year by executing structured demand generation, precision liquidation strategies, and data-backed territory planning across the assigned Bikaner geography.
- Pioneered the Bayer Gram and Sahbhaagi projects, achieving over 70% market penetration in selected villages through farmer education, product demonstration, and progressive farmer identification.
- Organised and executed pre-sowing campaigns, Farmer Training Programs, and field days — building sustained demand pull for Bayer products across key villages and retail touchpoints.
- Actively managed a network of distributors, retailers, and key influencers — driving product placement, timely collections, and lasting relationships that supported consistent territory growth.
- Planned and supervised field officer activities against sales objectives, leveraging digital reporting platforms for real-time visibility and accountability.
